# ASBEEZ POS — SPRINT 0 APPROVAL / SIGN-OFF

## Purpose

Authorize Sprint 0 to establish the non-negotiable framework and governance foundation for AsBeez POS.

## Objectives

- Lock architecture

- Enforce audit-grade controls

- Establish append-only ledgers

- Enable secure RBAC

- Prepare for franchising & scale

## Scope

- Laravel 12 backend

- ReactJS + Tailwind frontend

- Auth, RBAC, audit logging

- Period locking

- Idempotency framework

- Event scaffolding

## Out of Scope

- POS checkout

- Inventory movements

- Accounting postings

- ALRS rewards

## Acceptance Criteria

- No backdated writes after close

- Ledgers immutable

- Audit logging enforced

- RBAC enforced

- Automated tests passing
